

# Security Systems Tech

## Projects

### Job Description & Responsibilities

Digi Security Systems is an industry leader in the design, installation and support of custom video surveillance, electronic access control, intrusion detection and fire solutions for companies of all sizes. We've built our reputation on innovation and reliable service, and we're known as the industry's experts.

We are seeking technicians to join our operations. This person will perform skilled security technician work in the installation, service, troubleshooting, alternation and programming of all security related systems.

### Rate of pay depends on experience.

**Experienced technicians** have a solid background in Access Control, CCTV, and Burglar Alarms will be favored in the application process. The best candidates will have the ability to manage projects and support our sales staff in system design implementation. Ideal candidates will have the desire to grow and potentially become a leader within the organization.

Additional responsibilities of the Technician include, but are not limited to, the following:

- Performs service/installation of access control, intrusion alarm, closed circuit television systems, and other various security related systems under the supervision of the Project Lead and Lead Tech.
- Ensure project site is cleaned and secured each day before closing work.
- Ensure all safety requirements are met by their team.
- Ensures all RMA equipment is returned to the shop with the associated information.
- Evaluate, diagnose, troubleshoot and perform repairs as necessary.
- Perform other duties as assigned, including attending training classes when offered.
- Ability to lift/move equipment and tools weighing up to 50 lbs.
- Ability to work from ladders or man lifts at extended heights.
- Maintain accurate truck inventory to ensure timely response to customer needs.
- Competent in Project Finalization.
- Deadline, cost, and time driven.
- Must have a current, valid driver's license in the state of which you are applying and have the ability to meet our company driving standards.

## Our Process

### Complete your application.

You'll need to upload a resume and a document with three professional references. Our application also includes your work history as well as some questions that help us get to know you as a person.

**Stage 1** | If your application aligns to what we're looking for, you'll hear back from someone from our team to schedule an interview.

**Stage 2** | If you're moved along to stage 2 of our hiring process, we'll schedule a second interview with you. Often these interviews will include scenarios for you to respond to.

We review our top candidates as a team and send an offer to our most qualified candidate(s) for the job.

All candidates must pass a background check, a drug screening, and a motor vehicle report to be officially hired.

All full-time employees receive health, vision and dental benefits, 401K, and free life insurance. We provide our employees with all the gear and tools they need to do their job excellently.

## We look for people who share our values

**Humility** | Our dedication to excellence means our people are dedicated to learning new skills and improving old ones. We have the humility to know when we need to ask for help.

**Discipline** | The work we do is demanding, so our people have the discipline to get the work done on time, on budget, and to the highest quality. We work hard - and we enjoy doing it.

**Servant Heart** | Our people have a heart for serving others, above anything else. Our genuine care for those we serve is what sets us apart. We seek out people who are kind, patient, and caring.

**Accountability** | At Digi, we hold ourselves accountable for our responsibilities, and we go above and beyond for each of our partners. Our people are dependable and responsible.

**Integrity** | We do the right thing, all the time, no matter what. The right thing to do is providing the highest quality service we possibly can to our partners. No matter what
